

# Activity Module

Stimulate hand-eye coordination while playing with this Activity Module. This wall game stimulates and activates children to move more and train their responsiveness.

The Activity Module is an interactive game that gives you 30 seconds to press a light-up button as quick as possible. Afterwards, the counter indicates the total number of points achieved. This way, children can play with each other, but also break their personal records. The game can be easily and securely attached to a wall in any room.

## Touch button

<b>LED Amount</b>	12
<b>Lifetime LEDs</b>	50 000u
<b>Output</b>	25w / 5v / 5a
<b>Input</b>	100-240V
<b>Type</b>	WS2813 RGB
<b>Rating</b>	IP30

## Power supply

<b>Power input</b>	35w / 12v / 3a
<b>Power output</b>	12V / 3A

## Measurements

<b>Cabinet</b>	<b>HxWxD</b>	55 x 60 x 9 cm
<b>Cabinet</b>	<b>Weight</b>	12 kg

**TUV SGS** All our products are inspected, tested and certified by SGS and TÜV.
